

# MANAGEMENT OF VISITORS ON PRODUCE FARMS

## FARM VISITORS

A visitor is someone who **enters the farm with permission** but is **not a farm worker**. Visitors can be on the farm to **volunteer, inspect, or visit** (including U-pick).

## FARM RULES FOR VISITORS

Train farm workers to **follow the farm rules** and **review them with visitors**.

**Talk with visitors or use posters/handouts to share farm rules** when they enter the farm.

## FACILITIES FOR VISITORS

Visitors must have access to **handwashing stations** and **clean toilets**.

Visitors should wash their hands before:

Visitors should wash their hands after:

**Check the hand-washing station to keep these things:**

- Soap
- Water
- Paper towels
- Trash bin
- Waste water container

## MANAGING ACCESS

Manage access to areas where visitors might come in **direct contact with produce or food contact surfaces**. Their entry can be supervised or restricted by informing or using signs.
